

In this lab, we will learn to:

1. Use logical operators to construct Boolean expressions
2. Use selection statements to make choices in a program
 - (a) if
 - (b) if-else
 - (c) nested if-else

In the table below are the first three rows of the 2023 Federal Income Tax Brackets and Rates

Tax Rate	Single filers	Married filers
10%	\$0 to \$11,000	\$0 to \$22,000
12%	\$11,001 to \$44,725	\$22,001 to \$89,450
22%	\$44,726 to \$95,375	\$89,451 to \$190,750

Your objective in this lab is to create a calculator that takes two inputs

1. Earned income
2. Marital status.

and prints the amount of taxed owed for the 2023 year based on these two inputs.

Since we are only using 3 of the 7 rows of the 2023 Federal Income Tax Brackets and Rates, it is possible to make too much income for this calculator to work properly. If that's the case, inform the user of such.

There are some example outputs on the next page.

These are your checkout criterion. Show me.

After I give you the thumbs up, upload your .py file to D2L.

Your file name should be Lab3_firstName_lastName.py

Extension: (This is not part of your lab. It's just for fun.)

We used only the first three rows of the 2023 Federal Income Tax Brackets and Rates. Extend your program to include the entire table. [click here](#) to view the entire table.

Additionally, filers will receive a standard deduction based on their filing status. This can be viewed at the link above. Incorporate the standard deduction into your program.

```
C:\WINDOWS\SYSTEM32\cmd.exe
Enter the amount of income you earned in 2023: 10000
Are you married or single?
Type m for married and s for single: m
This year you owe 1000.00 in taxes

-----
(program exited with code: 0)
Press any key to continue . . .
```

```
C:\WINDOWS\SYSTEM32\cmd.exe
Enter the amount of income you earned in 2023: 81050
Are you married or single?
Type m for married and s for single: m
This year you owe 9286.00 in taxes

-----
(program exited with code: 0)
Press any key to continue . . .
```

```
C:\WINDOWS\SYSTEM32\cmd.exe
Enter the amount of income you earned in 2023: 150000
Are you married or single?
Type m for married and s for single: m
This year you owe 23615.00 in taxes

-----
(program exited with code: 0)
Press any key to continue . . .
```

```
C:\WINDOWS\SYSTEM32\cmd.exe
Enter the amount of income you earned in 2023: 20000
Are you married or single?
Type m for married and s for single: s
This year you owe 2180.00 in taxes

-----
(program exited with code: 0)
Press any key to continue . . .
```

```
C:\WINDOWS\SYSTEM32\cmd.exe
Enter the amount of income you earned in 2023: 150000
Are you married or single?
Type m for married and s for single: s
You made too much for this calculator. Hurray!

-----
(program exited with code: 0)
Press any key to continue . . .
```

```
C:\WINDOWS\SYSTEM32\cmd.exe
Enter the amount of income you earned in 2023: 75321
Are you married or single?
Type m for married and s for single: s
This year you owe 11878.12 in taxes

-----
(program exited with code: 0)
Press any key to continue . . .
```
