Week 4 Rubrics

std	P (Proficient)	S (Sufficient)	D (Developing)	I (Insufficient)	N (No evidence)
4.1	Effectively iterates over sequences in simple tasks with error-free execution AND uses comments to explain the iteration behavior.	Correctly iterates over sequences in simple tasks with error-free execution.	Minor syntax issues (off-by-one, wrong iterable) but logic clear.	Incorrect loop structure or misunderstanding of iteration.	No loops.
4.2	Effectively uses while loops with proper conditions and stopping logic AND program executes error-free AND uses comments to explain the iteration behavior.	Correct while loop that terminates appropriately in simple cases.	Minor syntax issues or flawed stopping logic.	Infinite loops, missing condition checks, or broken logic.	No loops.
4.3	Correctly applies nested loops AND uses comments to explain complexity and flow AND executes without errors.	Correctly applies nested loops AND executes without errors.	Minor errors in syntax, but nesting structure is correct.	Mis-nested loops or incorrect logic.	No nesting.
