Outcome 5 & 6 Rubrics

std	P (Proficient)	S (Sufficient)	D (Developing)	I (Insufficient)	N (No evidence)
5.1	Writes clear, correct functions with return values AND explains behavior using comments and appropriate naming conventions AND program executes error-free.	Writes correct functions with return values AND program executes error-free.	Minor syntax errors (indentation, erroneous returns).	Incorrect function logic OR missing or hard-coded parameters OR missing return statements.	No function.
5.2	Correct multi-argument functions with proper returns AND explains behavior using comments and appropriate naming conventions AND program executes error-free.	Function works correctly with accurate number arguments.	Minor syntax errors (indentation, erroneous returns).	Incorrect function logic OR missing or hard-coded parameters OR missing return statements.	No function.
6.1	Uses all required string operations accurately with clear reasoning AND explains behavior using comments AND program executes error-free.	Correctly uses at least indexing or slicing in simple tasks.	Minor syntax mistakes (e.g., IndexError, off-by-one error).	Logical misunderstandings of string operations.	No string manipulation.
